

**Experienced Sewing Machinist required for well-established company based in Staveley, Chesterfield, who are one of the leading players in the industry.**

Candidates must have experience with industrial sewing machines and work with a range of heavy and lightweight materials. In addition to sewing the successful candidate will also be expected to undertake cutting, packing and other types of finishing fabrics.

As part of our production team you will be responsible for finishing items such as: -

- Tents
- Bags
- Filters
- Points of Sale Products

Our finishing department works to short deadlines and requires very high product levels from all team members, and must be flexible in their availability to accommodate the peaks of demand for clients.

You are expected to be able to finish items based on line drawings and written instructions with high degrees of accuracy, therefore numeracy and English skills and comprehensions are essential.

A positive personality, with a flexible 'can do' attitude and the ability to effectively deliver a diverse set of production tasks are essential.

Salary range is from £7.50 per hour depending on experience and productivity.
